Tuesday, September 13, 2016
Luke Roffler Wisconsin DNR Biologist
Geneva Lake Status & Proposed Regulations

Luke Roffler is a Senior Fisheries Biologist for the Wisconsin DNR. His territory includes the inland lakes and streams of Kenosha, Racine, and Walworth County, Wisconsin.

Recent fisheries monitoring surveys on Geneva Lake have again indicated fantastic fishing opportunities for various popular species. Luke will talk to us about how we can build on the strong fish community and recent stocking events to make sure Geneva remains a high quality fishery for years to come.

With a resource like Luke, this will be a great opportunity for a lot of Q & A for someone who has the pulse on all the inland lakes and streams of southeast Wisconsin.

Now will be a great time to get your questions answered about Geneva or another specific body of water in Luke's area. Luke has spoken to our club along with others in the past and has been well received with good reports about his information and presentation.

Note Meeting Location: Big Foot Archers Club

Limited Trailer Parking Available

Dinner served approximately 5:30 PM – Meeting to follow

Note the date, time and location change...We will not

meet at Cabela's for this meeting
