

Virtual Meeting
Wednesday, March 10th
Club Member Discussion
Delavan Lake
Early Season Shallow
Water Strategies for Bass

The club will include Delavan Lake fish in the year-long 2021 Members Fishing Contest and will increase the number of club outings on Delavan for 2021. Some club members have been exploring the early season Largemouth Bass bite on Delavan the last few years and found it to be rewarding for both numbers and quality of bass. Smallmouth Bass are being caught more frequently on Delavan too.

We will talk about the locations on Delavan to fish during this spring shallow water bite as well as discuss some of the bait and tackle options you might want to use when fishing for Largemouth and Smallmouth Bass at this time of year.

Illinois Club Meetings are on the 2nd Wednesdays 6:00 PM

**MEMBERS WILL RECEIVE VIRTUAL MEETING
