Andrew Ragas

Northwoods Bass Fishing Adventures

***ARTIFICIAL TECHNIQUES & SPRING STRATEGIES
FOR TROPHY LARGEMOUTH & SMALLMOUTH BASS***

Andrew Ragas is one of the fastest rising fishing celebrities and educators in the Midwest. He is seen on TV, heard on radio and internet podcasts, and read in periodicals that includes MidWest Outdoors Magazine and other web publications.

Ragas is the owner of Northwoods Bass Fishing Adventures, LLC, (please visit northwoodsbase.com or facebook.com/NorthwoodsBass to learn more) the only specialty fishing guide service in Wisconsin that exclusively fishes inland lakes for bass. His trips, scheduled from May through October, emphasize seminar learning and high-tech strategies with the goal to educate, promote, and conserve the resource, while helping his clients have fun and achieve success. Big bass are his passion, but Andrew pursues multi-species as well with muskies and big panfish being his secondary favorites. He splits time between living in Illinois with his wife Amanda, and fishing in Wisconsin.

Andrew's Northwoods Bass website is a treasure trove of angling information with an extensive library of articles. He also publishes a timely monthly newsletter to keep his readers, followers, and customers up to date on the latest action.

Ragas also has a desk job like many, but it is one that allows him to work year-round in between all the fishing he does. He is a self-employed small business owner, specializing in website design, web marketing, and web management solutions. Working from his desk and remotely, he works on website design projects with clients of all industries throughout the country that includes outdoor brands, corporations, television shows and media entities, healthcare, professional services, and more. He other business can be visited at ragasmedia.com.

Andrew will give our audience a virtual tour of what it's like to catch big bass from his boat when hosting trips in April-May-June. In this one-hour session divided into one-half smallmouth and one-half largemouth, we will learn how to identify seasonal locations and hot-spots, find the right trophy waters, explore fish movements and spring migrations, and a showcase of effective strategies. Hopefully his shortcuts will enable you to consistently catch more and bigger bass wherever you fish at this spring. We are fortunate to have Ragas teach us some valuable techniques prior to heading north for ice out.

Wednesday, April 13th at 6:00 PM

Mark O'Neill – Structure-Fishing
